

Dongle Utilities Instructions

The Dongle Utilities download is for users who require the latest update program and dongle contents viewer if they are transferring installations from one PC to another for example..

This download contains the zip file with the latest hupdate.exe and viewhasp.exe files and also the old hasp 3 hupdate.exe application file for HASP3 parallel dongles.

Installing The Dongle Utilities zip

- Extract the DongleUtils.zip file to you installation folder. (CADmep+, CADduct, CAMduct, ESTmep+ or ESTduct).
- Files are not ready for use.
